

A Gift has Been Made in your Honor.

Someone special made a gift to Hope 2 Others Water Filters just for you!
This gift is better than any other present — it will provide a family or classroom
with fresh, clean drinking water for up to three years!

With this gift, made in your honor, families can focus on their children's
education and building a better life rather than coping with water-borne
illnesses.

Because of you, a family will have a healthier, brighter future!
