education equals hope

e=h

Education Equals Hope's mission to provide for the education of those living in desperate and difficult situations. Over the past 15 years, we have grown to impact students in 7 countries by believing that holistic education is a fundamental part of the equation that empowers children and communities around the globe to break the cycle of poverty and impact the next generation.

Because of you, a family will have a healthier, brighter future!

Someone special made a gift to Hope 2 Others Water Filters just for you! This gift is better than any other present it will provide a family or classroom with fresh, clean drinking water for up to three years!
With this gift, made in your honor, families can focus on their children's education and building a better life rather than coping with water-borne illnesses.

A Gift has Been Made in your Honor.
