

A Gift has Been Made in your Honor.

Someone special made a gift to Hope 2 Others Water Filters just for you! This gift is better than any other present — it will provide a family or classroom with fresh, clean drinking water for up to three years!

With this gift, made in your honor, families can focus on their children's education and building a better life rather than coping with water-borne illnesses.

Because of you, a family will have a healthier, brighter future!

Education Equals Hope's mission to provide for the education of those living in desperate and difficult situations. Over the past 15 years, we have grown to impact students in 7 countries by believing that holistic education is a fundamental part of the equation that empowers children and communities around the globe to break the cycle of poverty and impact the next generation.
